As a New App User,

I want to have a verification process in
my account creation,

So that I can establish credibility and
build trust within the app.

As a Visual Artist,

I want to upload all of my creative
assets in one platform,

So that I can showcase my work to
potential clients and collaborators easily.

As an Illustrator,

I want to have the ability to customize
my profile,

So that I can display a presentable image
to other people.

As a Recruiter,

I want to have my applicant's works to
be in a single link,

So that I can judge my applicant's
potential with ease.

As a Graphic Designer,

I want to have the ability to manage the details of my artworks,

So that my artworks can be presented in a professional and cohesive manner.
