# Midknight – Project Proposal

*Kajas* (pronounced as *"KAH-yahs"*) creates a dedicated space for visual artists to compile their creative works. This online platform acts as a central hub for graphic designers, illustrators, photographers, and other visual artists to curate and manage their professional portfolios. Unlike scattered presentations across the web, Kajas fosters a streamlined organization of artistic creations, allowing artists to present their work in a cohesive and professional manner.

With *Kajas*, you can:

- Upload various creative assets as image files.
- Edit and manage captions, descriptions, and artwork details.
- Public visibility for targeted audiences through sharing your personal link.
- Robust security measures to protect artist data and artwork.

*"Unleash your Creative Effort with **Kajas**, Where Art Finds Its Home."*
